

1133 Avenue of the Americas

Completed: 1970

Architect: Emery Roth & Sons

Stories: 45

Building Area: 1,101,300

Major Tenants: ACE Insurance,
Patterson Belknap Webb & Tyler,
Bank of America.

Located on the entire westerly block front of Avenue of the Americas between Bryant Park and Times Square, 1133's handsome limestone-panel-and-glass façade represents the period's popular modern universal architectural style. Its major renovation in 1994 outfitted the building with new elevator systems and a striking lobby. The building has every contemporary service and amenity, and the lobby hosts a revolving art show, fresh flowers, and a newsstand.

1133 Avenue of the Americas

SPECIFICATIONS

Design and Construction

Architect: Emery Roth & Sons (1970)

Lobby: A two-story lobby with marble finishes. Two entrances, one on the north side dedicated for the IRS, and one on the eastern side for all others.

Building Height: 515 feet

Stories: 45

Slab Height: 12 feet, 6 inches

Floor Plates:

Low: approx. 33,100–35,300 sf

High: approx. 22,100–23,500 sf

Heating, Ventilation and Air Conditioning

Heating is provided by a heat exchanger, which converts Con Edison steam to hot water, and circulates the hot water to the induction units located in the duct system throughout the building. The air conditioning system is a high-velocity induction unit system serving the perimeter of the building and a medium-velocity variable air-volume system serving the interior areas.

Base Building and Life Safety

Since 2006, The Durst Organization has had the only First-Responder In-Building Communications System that enables first responders (FDNY, EMS, and NYPD) to communicate within the building. Under the control of the respective responder agency (FDNY controls FDNY, etc.), the system is tested regularly by both building personnel and an outside testing service to ensure uninterrupted operation.

Sustainable Building Features

The building was awarded an ENERGY STAR® rating for three consecutive years.

Telecommunications

The property has a complete state-of-the-art telecommunications system for communication between and among building management, building services, engineers, and security. Wireless services are provided by one or more carriers, depending on the tenant requirements and carrier participation. Telecommunications are being constantly updated and modernized. Time Warner Cable provides cable TV, and Cogent provides wired high-speed Internet; the building has T-3 availability.

Electrical System

Con Edison delivers electrical power to the building via a second contingent, 277/480V, spot network located in the sidewalk vault. The service is made up of the four 3,200-amp service take-offs, which feed the building's service switchgear. Power is then distributed via pipe and wire risers throughout the building. 10% of the total energy utilized by the building consists of wind power, which is purchased from a third-party energy supplier. The building's electrical distribution system is continuously maintained in accordance with national testing standards and applicable codes to provide the highest level of reliability. It is equipped with a sophisticated, web-enabled electrical metering system, which is used for tenant billing as well as allowing our in-house experts to monitor system performance in real-time. Our in-house electrical engineers analyze new tenant designs and requirements to ensure that sufficient electrical distribution is provided in accordance with lease terms and building rules and regulations.

Security

Electronic Security Systems provide security for the building, proximity key cards for all tenants, and CCTV cameras. The lobby is staffed by licensed security personnel 24/7. All buildings are centrally monitored from our security control command center.

Cleaning

High-caliber green cleaning is provided, which helps tenants achieve and maintain optimal efficiency and professionalism. Our recycling program ensures an environmentally responsible workplace in keeping with The Durst Organization's corporate philosophy.

Messenger Center

The building has a separate messenger center, which directs daily packages, food deliveries, and delivery personnel to a secure location separate from the building lobby.

Area Amenities

Several high-end restaurants, including Aureole, Del Frisco's, Bryant Park Grill & Café, Koi, db Bistro Moderne, Osteria al Doge, and Sushi Zen

A number of hotels, such as The Algonquin, The Royalton, and Sofitel
