TENANT ACCESS

Security for the building is provided by electronic security systems, proximity cards for building access control and CCTV. The lobby is staffed 24/7 by either a licensed security guard and/or a building staff member. All buildings are centrally monitored by our security Command Center, which is staffed 24/7 by licensed security personnel. All loading docks are staffed by security personnel from 8am - 5pm, Monday to Friday.

STANDARD HOURS OF OPERATION

The on-site Property Management Office is open 8:30 AM–5:30 PM, Monday–Friday. Building hours are 8:00 AM–6:00 PM, Monday–Friday.

PASSENGER ELEVATORS

Eight modernized elevators

FREIGHT ELEVATORS

One freight elevator: 8'4" h x 7'6" w x 5'6" d
Two entrances: lobby and loading dock door: 3'6" x 6'10"

DELIVERIES/LOADING DOCK

The loading dock is located at 211 East 44th Street. Freight hours are Monday – Friday, 9:30 AM – 12:00 PM and 1:00 PM – 4:30 PM.

SUSTAINABILITY

- LEED Gold certification under LEED v4 Existing Buildings: Operations + Maintenance
- EPA Water Sense-labeled new plumbing fixtures to promote high-performance and water efficiency
- Tenant recycling program and organics collection program for composting
- Use of green cleaning products, equipment and strategies to promote a healthier work environment
- Renewable wind power is purchased to offset 100% of the building's electricity use
- Green roofs and exclusive outdoor terraces

POWER AND UTILITIES

HEATING, VENTILATION AND AIR CONDITIONING

Heating is provided by Con Edison steam. Heat exchangers convert the steam to hot water, which is supplied to the coils in the central fan rooms and the perimeter induction units. The air conditioning system is a central-fan variable-air type consisting of one 625-ton steam turbine and one 625-ton electric drive centrifugated. The two central fan rooms are located in the sub-cellar and on the 25th floor. The cooling tower has a capacity of 1,960 tons, of which approximately 350 tons are available for tenant's supplementary cooling systems. Conditioned air is distributed through perimeter induction units and overhead ductwork for interior spaces. Temperatures for these zones are controlled by thermostats.

ELECTRICAL SYSTEM

Con Edison delivers electrical power to the building via a second contingent, 120/208V spot network located in the sidewalk vault. The service is made up of the two 4,000-amp service take-offs that feed the building's service switchgear. Power is then distributed via pipe and wire risers throughout the building.

100% of the total energy utilized by the building consists of wind power. The building's electrical distribution system is continuously maintained in accordance with national testing standards and applicable codes to provide the highest level of reliability. It is equipped with a sophisticated, web-enabled electrical sub-metering system, which is used for tenant billing as well as allowing our in-house experts to monitor system performance in real-time. Our in-house electrical engineers analyze new tenant designs and requirements to ensure that sufficient electrical distribution is provided in accordance with the lease terms and building rules and regulations.

TELECOMMUNICATIONS

- The Durst Organization offers its tenant a wide range of telecommunication providers. Service providers which are currently available at 733 Third Avenue:
- Wireless: Verizon Wireless
- Telephone: Verizon
- Internet: Cogent, Lightower, RCN, Reliance, and Spectrum
- Television: RCN and Spectrum
